

Review the Official UK Top 10 Singles

Your task is to review the Official UK Top 10 Singles.

To do this, first you need to find out what these singles are by doing some research.

For each single you review, you could include:

- Give the song a mark out of 5.
- Explain what you like about it in terms of the Elements of Music.
- Explain what you dislike about it in terms of the Elements of Music.
- Would you like to sing the song yourself?
- Do you think it is worthy of its chart position?
- Discuss how well the song is song.
- Think about the production – What special effects have been used in the studio? Have these made the song more interesting or not?

Present this work in a Word Document very nicely using CD artwork images, colour and anything you deem appropriate.

Make sure you have done at least one side of A4 using up to size 14 font by the end of the lesson.
